B.Sc. in Computer Science from Universidade Federal do Rio Grande do Sul, elected the best Computer Science College in Brazil. Programming language agnostic, I have three years of experience developing on both back and front-end of websites and web-based applications in startup and marketing agency environments.

Professional Experience:

Software Engineer at Superplayer (Startup)
September/2015 – Present

• Development and maintenance of components on the superplayer.fm music player platform.
• Responsible for the full stack (server-side application logic and front-end development).
• Data and results analysis.

Full-time Intern at Pmweb (Digital Marketing Agency)
March/2014 – August/2015

• Development and maintenance of websites for hotels and resorts.
• Responsible for the full stack (server-side application logic, database management and front-end development).
• E-mail marketing development.

Full-time Intern at Sthima (Startup)
April/2013 – February/2014

• Development and maintenance of cloud-based CRM software.
• Responsible for back-end development and database management.

Education:
B.Sc. in Computer Science
Universidade Federal do Rio Grande do Sul
2008 – 2015

Skills:
• Excellent programming logics.
• Back-end development in Python, JavaScript (Node.js), C#/ASP.NET and PHP languages.
• Front-end development in HTML, JavaScript/jQuery, CSS/Sass/Less and Bootstrap/Foundation.
• Substantial understanding of RESTful services.
• Strong experience in SQL and NoSQL modeling and querying.
• In-depth version control tools experience.
• Open source enthusiast.
